ALUMINIUM SYSTEMS

VR700

APPLICATIONS

- Roof lights
- domes
- pyramid roofs

PARTICULAR CHARACTERISTICS

- The gutter and support profiles can be reinforced
- Glazing:
 - with cap: 10 mm - 105 mm
 - with rubber: polycarbonate panels (16 to 32 mm)
 - with glazing bead: 10 mm - 85 mm
- External statica
- Possibility of concealing cables for lighting
- Rubbers to be mounted in advance in cover caps

100% MADE IN BELGIUM

Aliplast develops aluminium profiles tailored to current housing needs. Everything happens under one roof: from drawing to extrusion, powder coating, insulation and transport to the Aliplast distributors. The distributors produce and install the finished windows in your building project.

25-YEAR COLOUR GUARANTEE

Aliplast gives a 25-year guarantee on 50 current colours. The Qualicoat Seaside quality label ensures that your paint colour is extra protected against aggressive environments (exhaust fumes, salty sea air, etc.). You enjoy a 15-year guarantee on all other colours. Peace of mind for the future.

DURABLE PRODUCT

Aluminium is a sustainable product because, in addition to its long lifespan, it is infinitely recyclable without compromising quality. We use a mix of primary billets with the lowest possible carbon footprint and recycled aluminium billets for our systems. The energy required to recycle profiles (melting process) is only 5% of the initial energy needed to produce primary billets.
