Mac Glass

APPLICATIONS

- Certified glass fall-through protection for houses or flats.

PARTICULAR CHARACTERISTICS

- Certified glass fall-through protection
- Ultimate transparency thanks to a minimum of profile.
- In combination with a single pivoting window with option of tilting or with composite (sliding) windows
- Up to 2 meters wide and with a maximum glass thickness off 18 mm.

100% MADE IN BELGIUM

Aliplast develops aluminium profiles tailored to current housing needs.

Everything happens under one roof: from drawing to extrusion, powder coating, insulation and transport to the Aliplast distributors. The distributors produce and install the finished windows in your building project.

25-YEAR COLOUR GUARANTEE

Aliplast gives a 25-year guarantee on 50 current colours. The Qualicoat Seaside quality label ensures that your paint colour is extra protected against aggressive environments (exhaust fumes, salty sea air, etc.). You enjoy a 15-year guarantee on all other colours. Peace of mind for the future.

DURABLE PRODUCT

Aluminium is a sustainable product because, in addition to its long lifespan, it is infinitely recyclable without compromising quality. We use a mix of primary billets with the lowest possible carbon footprint and recycled aluminium billets for our systems. The energy required to recycle profiles (melting process) is only 5% of the initial energy needed to produce primary billets.
